I suppose that would work for you but how would the public be able to see the attachments? Will you all load those up onto a website?

Valois,

We would not be able to print our entire response as the attached references exceed 10,000 pages. We would propose to provide everything on a flash stick on Monday and would also mail a hard copy of our written response. We would further suggest that we provide references only by flash stick. Please confirm this is acceptable.

Thanks.

John

Hi John,

I checked with our attorney and she says we need to have your comments in our hands by the deadline. So dropping off the flash drive at our office before COB Monday would fulfill that requirement.

She also recommends giving us a hard copy, which can arrive later. The data stick comments could meet the deadline and the hard copy can follow later if you can't get it printed out before the deadline.

Valois,

It appears your mailbox size is considerably smaller than our entire response. We are proposing to email you an FTP link to download our response. Would this be acceptable?

We would also look to hand deliver an electronic copy (i.e. Flash Stick) to EPA offices on Monday.

I am not sure of this but just wanted to suggest to you that such a small mailbox size might be easily filled by other responses.

Sincerely,

John

Subject: FW: maximum size for EPA email & attachment

Hi John,

Please read the info below. Evidently the size of an email attachment increases once it is attached to the email, so you will need to take that into consideration.

This was a helpful exercise because Leanne also prompted me to clean up my email account to be ready to receive lots of email on Monday!

Subject: Re: what is the maximum size for email attachment that I can receive, please?

Hi Valois:

This is the response we received from the O365 Team:

Attachment size limit (sending and receiving) - The default maximum quota for receiving is 30MB. Also, when you attach a file to a message, the file size of the attachment increases (it can increase as much as 30% in size when it is sent).

Message size limit - Keep in mind that someone's mailbox on the Office 365 server will be prohibited from receiving messages if they exceed their maximum quota limit. 150MB

Thanks!

Subject: what is the maximum size for email attachment that I can receive, please?

Hello,
I am in the midst of receiving public comments on a proposed permitting action. One of the commenters asked me the size limit for an emailed attachment that I can receive.
Please tell me what that maximum size is.
Thanks!

Valois
